5 TIPS TO HELP YOU CONQUER YOUR FIRST ESCAPE ROOM

1. Communicate with Your Team

Communication is key in an escape room. Make sure to share your findings, ideas, and theories with your team. This will help you avoid duplicating efforts and ensure that everyone is on the same page.

2. Observe Carefully and Take Notes

Pay close attention to your surroundings, including decorations, symbols, and patterns. Take notes and photographs (if allowed) to help you remember important details. These observations can be crucial in solving puzzles later on.

3. Search Methodically and Thoroughly

Divide the room into sections and methodically search each area. Don't be afraid to move objects, open drawers, and inspect hidden compartments. Make sure to check for hidden clues, such as messages on the back of objects or inside containers.

4. Use Your Time Wisely

Keep an eye on the clock and prioritize your tasks. Focus on solving the most critical puzzles first, and then move on to less pressing ones. Don't get stuck on a single puzzle for too long – ask for hints or move on to something else if you're getting stuck.

5. Stay Calm, Think Logically, and Have Fun

Escape rooms can be challenging, but they're also meant to be enjoyable! Stay calm, think logically, and don't be afraid to ask for hints. Remember, it's okay to make mistakes – they're all part of the learning process. Most importantly, have fun and enjoy the experience with your team!
